Cousmers of Ink.

The undersigned begs to inform the highly respectect community of this city and the country, that he has establisf ed an

INK MANUFACTORY.

No. 50, Calle 25 de Mayo.

And is prepared to sell as good Ink, as any made in any part of the globe, and warranted to retain its beautiful jet black color which it has at the moment when used, at 50 p. $ less than the same can be bought at any other house.

People under the impression, that they pay their $30 mge. for a quart bottle of English Ink, can have the same proved, that most of the Ink sold for English, is made in this country, and imposed upon the public as such. But I am not ashamed to put my own Name on the labels, being fully convinced that my Ink is of a much superior quality, and possesses more virtues than most of the Inks.

I—It is of a very rich black at the moment when used.

II.—Retains its color.

III.—Runs freely off the pen.

IV.—A preserver of the eyes to those who have much to write at night because they need not so force their eyesight, to see what they have written.

For the reasons explained, I hope that my prijudice generally entertained against Home Manufactures will be laid aside, and all I ask is, to try the same which will be a benefit to the buyer, and the country, in assisting Industrial Enterprise.

N. B.—Orders left at the office will be punctually attended to and delivered free of any charges.

WEDNESDAY, APRIL 29, 1868.

IRELAND AND POLAND.

There are many features in common between the country of O'Connell and that of Kosciusko, and a strong fraternal sympathy unites the gallant Poles with the simple mountaineers of Kerry and Galway, although no link of blood, language, or commerce serves to span the intervening distance. A similarity of destiny is the real and only cause of this strange alliance. Macaulay, in his brilliant reviews of the various forms of government recorded in history, pays a high tribute to Poland and Ireland whose theory of elective monarchy seemed most perfect, avoiding alike the danger of hereditary imbecility in royal blood, and the ephemeral condition of a republic. Yet both terminated fatally for the independence of those States: both were subjected to a race alien in religion, language and blood: both disappeared from the map of European nations, and Poles and Irishmen were Pariahs in their native country. Language and religion proved, however, bulwarks of nationality, which the conquerors vainly essayed to overturn or destroy. After a terrible epoch of persecution, over two centuries, during which Ireland suffered wholesale confiscation, the civilising spirit of the age, guided by the laws of Emancipation, introduced a period of conciliation and liberty, which effected more than fire and sword. A portion of Ireland, abandoned voluntarily a language which, when declared penal, they had cherished with their faith. Hence the bulk of the Irish people, when they obtained Legislative independence, desires to day a lasting union under the same monarch as Great Britain, since they enjoy nearly all the privileges of Englishmen.

On the other hand, Russia has forfeited up a fateful tyranny and a bloody persecution, without the faint est hope of success in obliterating the Polish tongue or changing the national religion. We assert that the present is a religious war, and hence the cause of Poland must triumph, for no people will accept degradation at the caprice's point. Perhaps Russia would be less fortunate in conciliaton than England has been, yet, the days of the knout have passed for ever, and in the middle of this century—"Vox populi, vox Dei"—must be vindicated. Coercion and barbarities may terrify a small village into submission, but Europe has spoken, and every victim of Cossack brutality raises up a hundred pleaders for the cause of this Nioke of nations.

The Roman emperor heard the adage "sanguis martyrum, semen Christianorum" and Maximine and Julian lived to see it verified, when the Cathedrals of Constantine surmounted the statue of Capitoline Jove. We venture to predict that the horror existing throughout Europe by the murderous excesses of the Russians will not subside into a mere contribution of money but cause an universal crusade for the rescue of Warsaw. Remarkable coincidence! Englishmen and Irishmen are for once equally free from fear at home, and it is not impossible that Garibaldi shall yet fight side by side with a legion from Kilkenny or Tipperary on the banks of the Vistula.

One hundred thousand stalwart sons of Erin are battling for their adopted country, with unmatched bravery, on the side of the Atlantic; yet if another proof is wanting for their zeal for Liberty, we expect the Emerald Isle can spare a battal on in support of Poland. It is a subject of public to Irishmen that the recent debate in the great Parliament on the Globe, was proposted by two Kerry countrymen, Pope Hennessy and Dr Lacy Evans The former in making the motion evinced such talent and eloquence, pleading the noble cause of the martyr people, as to create for himself a reputation of no mean weight in St Stephens, and may prove a national testimonial of gratitude from the patriot maidens and wives of Warsaw. The latter in seconding the same, proved that he was an old friend of his valiant life in defence of the country which once saved Christendom from the Turks, as relief vessel at Liverpool, laden with Corn for the famine for the cotton operatives, the gift of kind friends in the Northern States.

Last night there near Quilmes an old resident, Mr. W. Young. Deceased was known as the best butter factor in the province, and had amassed, we believe, a good fortune.

The polemic between Dr. Adolfo Alsina and Mephistopheles is very stupid and neither party possesses a particle of esprit. The former, however, carries off the palm for absurd personalities, which seem to form an integral part of Argentine daily literature.

Touching the hite race at Belgrano we have been egregiously deceived. Not in a new. So great a gun as Mr. de Casagnac need hardly have been loaded to tell us what we knew already. The main portion of the article is equally novel and original. He says that the result is on the whole to be considered satisfactory, as it leaves the Government entirely free to act as they please, recommending the public to trust the Government, and all will be right in the end.

The news from Poland continues of the most conflicting character. It is utterly impossible to reconcile the telegrams from Cracow with the telegrams from Warsaw. Meanwhile it is unsatisfactory to find that the debate, which was to have taken place on the subject this week in the Senate, is to be postponed.

MISCELLANY.

While General McClellan was at dinner at the Mussasoit house, one of the waiters, Joseph Speight, two ladies plundered a military cap, which they supposed to be the General's, of both its buttons, reasoning that nothing else be preserved as mementoes. The mortification of their feelings and the redness of their faces may be imagined when the theft of the cap and buttons was detected enp, and the General put on his own, which was intact. Those buttons have not been preserved, but the cap has and is valued much higher than the two ladies wish to hear it.

A propos of crinoline, there is a report current which has fluttered the gossiping milliners and dressers a little, to the effect that the Princess Alexandra's arrival is to be the signal for a sweeping reduction of the ladies' hoops.

The Americans assert that a lady in Syracuse has been married to a soldier in a fort near Washington, the two being 400 miles apart, and the vows solemnized by telegraph. It took two hours to do the work complete, and the telegram from the chaplain announced the full field of oats in the neighbourhood.—*F. G. Kerr Papers*

A Sleepy Fellow—I there learnt that a man, a farrier, at twelve o'clock of the last night, being drunk, had fallen asleep in the river water, and in minutes, during which he was in the water, the boat was lowered, and he was picked up by his friends, who were provided with sleep and gin that he did not awake until he had been on deck some time. He now remembers nothing, save delightful visions which must be! He was, however, in my opinion, an unlucky fellow, as he did not sleep through the voyage.—

Mrs. Gen. m. of Tichfield, says the *Spectator*, has been compelled by new law courts this week to pay 10/. for doctor's "stuff." She has taken besides other medicines, 2,677 draughts, which she had done at home. Dr. Gibbon Bonnwell remarked "he would really recommend the defendant in future to buy her physic by the hogshead. The bill, which the jury modified to 10/. originally presented the alarming figure of 33/.

The statue of the Virgin, which is to be placed on the top of the Tour Pey-Berland, has just arrived at Bordeaux. It is of copper-gilt, measures 20 feet in height, and weighs 4,000 lbs.

The royal family of Spain, besides the King and Queen, consists of the Queen Mother, the Prince of the Asturias, six infants, thirteen infantas, and two grandsons of Spain. The Senate consists of 296 members, and the Cortes of 391 deputies.

The colony of Victoria has just had the disposal of the Melbourne Exhibition Commissions in L. nden a further sum of 5,000/., to be applied towards providing passages to married and single women of good characters from the distressed districts of Lancashire and Scotland.

—A New Engine—The *Telegraph* of Barcelona gives a strange account of an apparatus for flying in the air; invented by a farm labourer named Ormeño, residing near Malgrat. It consists of wings attached to the heels, and large wings extending from the shoulders to the waist, and moved by the hands. The inventor, the above named journal stated, has already risen to a height of 300 yards, and moved about in all directions, even against the wind. He had also performed the distance of a league in less that a quarter of an hour. Credat Judæus.

—The reception of Prince Alberto de Broglie as successor to the late Father Lacordaire, at the French Academy, took place on Thursday. The Prince of Broglie is the eldest son of the duke of that name, his mother being the daughter of Madame de Stael The duke is also a member of the Academy, but this is perhaps, the first time that father and son have had seats there at the same time.

It is said that the Poles have a very warm partizan in the Empress Eugenie, and that she has been urgently prayed to intercede for them.

The Princess Dosch as de Pois, née Princess Poniatowski, widow of Prince Duke de Poix, formerly French Ambassador at St Petersburg, has just died at Versailles, at the age of 77. The Hotel des Invalides, for which deceased was Lady of Honor to the Empress Maria Louisa, and under the Restoration was Mistress of the Robes to the Duchess de Berri.

The ex-King and Queen of Greece are about to establish themselves in the Royal Palace. The dethroned monarch, being rather short of money, has received 50,000 drachmas for his stud, which consisted of 30 horses, and are said to be worth at least double that sum.

LOCAL EVENTS.

EL NOVEL—This little news paper is scandalising our public by indecent commentaries on the contents of the Bible. The Chief of Police should take the necessary steps for the prevention of this nuisance.

ARGENTINE RACES—The second meeting of this society will take place at Belgrano on next succession, on Saturday the 10th May; races to commence at one o'clock.

JERKED BEEF.—Messrs Rathbone Lafone and Williams have written from England to Montevideo about this article, stating that samples have been sent to Amsterdam and Hamburg, but the details do not contain any new information on the subject of British consumption.

NEW MACHINE.—A countryman in the province of Cordova has lately invented a machine to peel peaches with great celerity

This invention is of the greatest utility as it is well known that the proviin de of Mendoza particularly and several others carry on a large trade in dried fruits peeled at present by manual labor and consequently a greater reduction in the price.—*La Republica.*

Even here in Buenos Ayres it will be of very great utility as the production of this fruit is increasing very fast, and next year soon be exported as large as that Montevideo with pears, apples &c. of which we know one house alone exported last year over 3,000 piasstores value.

Here something of the kind is already beginning to be known. A gentleman of ours has sent very lately a shipment of native grown potatoes to Rio Janeiro per schooner "Sirena" which have obtained there 3$600 reis per quintal Brazilian money.

IMMIGRANTS.—Arrived at Montevideo the "Mannocchi" from Vigo with 400 immigrants.

MEXICAN PLAG.—A further sum of 900 dollars currency has been collected for this fund. Hitherto the amount of subscription is very limited, our public unusually considering that Mexico wants something more than silk flags to defend itself from the French.

MUSEUM.—A good part of the collections of birds and animals collected by Mr. Burmeister in Bolivia has been purchased by the government for the public museum for the sum of $ 60,500.

GIBRALTAR.—Our colleague the "Siglo" has been publishing with unnecessary repetition for the last six months the news of the speedy evacuation of this fortress. The "Times" arrived from Gibraltar reports a speech of Mr. Fulmerston in which he states that there is no intention of adopting such a course.

THE RACES took place at Belgrano on race course on Sunday between the horses "Mas ó menos" and "Huzaingo" the latter losing although he was the favorite and bets were offered for him of 20 to 15. A large number of people went by the train.

ECCLESIASTICAL.—The remarkable letter of Dr. Aguero have been interred in the family vaults at Belgrano to decision of the National Government against the Bishop, who had refused it alleging that it was framed without the sacraments previous to his death.

AT A BALL given by Cont Wanlewski in Paris, we hear a young gentleman and lady were respectively dressed as a south American gaucho and Pampa Indian.

COLON THEATRE was very full Sunday night and Miss Lees Brothers as usual were very greatly applauded. Mr. William Lees is now recovering and performs Amphitheatrician feat as well as ever. It is useless to enter into particulars but we can assure our readers that every part of the performance of Mess Lee Brothers is first class

The Buffos sang well yet it is a pity that although they have been nearly three years in the country they give us the same pieces as on their arrival, or what portion we would call very reasonably "stock pieces."

COLON THEATRE.—We beg to call attention to the interesting programme of Miss Lee's for to-morrow night, in which it is needless to remind it to our public as their reputation is sufficiently well established since their appearance in public.

We notice also the performance of a new artist Mr Andrew Lehman, not yet seen by our public.

COASTAL RAILWAY.—Messrs Ignacio de las Carreras, Jules F. Vial, Leonardo Pereira and E. H. Follour have accepted their appointments as the Local Committee for collecting subscriptions for this railway.

Mr. Thompkinson has resigned.

THE ELECTIONS.—Both were approved yesterday, by the Chamber of Deputies in public session. The Government sent troops to preserve order, and in the case of Vellaneda made a very brilliant speech.

FLORES.—Several proclamations of General Flores were privately circulated to day by some of his friends.

Amber Tooth Setting.

156—Calle Cuyo—156

Incles E. Kenny sets teeth by a new intention, amber, which is found superior to every other mode. It accommodates itself to the gums and palate much better than gold, whilst requires springs. A set of teeth in amber, after two days, serves for mastication, speak ing and lasts a life time.

Any description of artificial teeth is very fine, and cannot be distinguished from a natural set. I will also clean teeth with great care.

I have a number of instrument for extracting roots of teeth. also for stuffing the same with gold, silver, &c., which I guarantee for a number of years.

BUENOS AYRES.

JAMES SAUNDERS begs to announce to the public that he entered into Partnership with ALBERT KEYSER in the above business, at the premises formerly occupied by Mr Thomas Moore, and lately in possession of Messrs Saunders.

Wool presses, cranes, and dock-going machines mine steam-engines of superior quality for erecting wind-mills, corn mills, &c., I have power sheep-shearing machines, sugar mills, pumps, steam and cranes, steam engines, ship-smith work in general and all kinds of machinery made on the shortest notice and on the most reasonable terms.

The great advantage of persons who do business with us is that we have no agents to pay, consequently we can give the friends of proprietors and foreign the benefit of the same. We have also a good smith who lives in his own premises and who attends to the wood work himself, so that we will be able to give a superior workmanship.

COLEGIO ANGLO-PORTUGUES

1868—CALLE MARTIN—1868

This school has been established for several years, and is well known in the city.

No pains are spared to make the place of instruction attractive to the pupils, and the instruction itself profitable.

Patrons are respectfully invited to visit the school, and to note carefully the monthly reports of progress and deportment.

The English, Spanish, and French languages are most carefully taught by skilful instructors, and every branch of useful or ornamental education may be prosecuted in either of these languages.

French and drawing are taught after school hours. Also an afternoon class for fancy work four times a week.

Day pupils can be received at any hours, and a few could be accommodated as boarders or half-boarders.
